

Specialty Fertilisers for Climate Resilient Agriculture

The Fertiliser Association of India, New Delhi organised a training program on **Specialty Fertilisers for Climate Resilient Agriculture** at Shillong, Meghalaya during 9-11 April 2025.

In his inaugural address, Dr. Suresh Kumar Chaudhari, Director General, FAI, detailed about the areas related to growing need of agri.-commodities to burgeoning population; adverse effects of climate change; mitigation and adaptation strategies towards climate resilient agriculture; use of fertilisers in balanced proportion along with organic sources and bio-fertilisers; emphasis on new innovations and innovative technologies to improve farm productivity/income and sustain soil health, etc.

Dr. Kadirvel Govindasamy, Director, ICAR-ATARI, Guwahati; Dr. V.K. Mishra, Director, ICAR-RC-NEH, Umiam and Ms. J.C. Lyngdoh, Director of Agriculture, Government of Meghalaya also provided valuable inputs to the participants on the subject.
